

GURLEY MODEL R112 ROTARY INCREMENTAL ENCODER

Gurley Precision Instruments Introduces Its *Smallest High-Resolution Encoder - Model R112.*

Troy, New York - GPI Models R112S and R112B optical rotary incremental encoders are designed for light industrial applications that require high resolution in a very small package. Available in either shafted or blind-hollow shaft versions, these encoders are only 12mm dia x 25mm long with resolutions up to 8,000 cycles/rev (32,000 counts/rev). Typical applications include: x-y stages, medical devices, miniature/small instrumentation, compact motors and actuators.

Gurley Precision Instruments is an ISO-9001 certified company that offers rotary and linear optical encoders, and related accessories. You can see their wide selection of incremental, absolute and Virtual Absolute(tm) encoders at www.gpi-encoders.com, or call 800-759-1844 for free application assistance.
